

# S.A.F.E.<sup>®</sup>

**STOP ADDICTION FOR EVERYONE**

***“I wish people understood that throwing meds into the sink or toilet pollutes our water sources.”***

**ADDICTION IS A TREATABLE DISEASE:** Chemicals from pills make their way through the water system unfiltered and eventually end up in local creeks, rivers and lakes.

**YOUR PRESCRIPTION MEDS CAN BE SOMEONE ELSE'S PROBLEM!**

**KEEP YOUR MEDICATIONS SECURE.**

**Drop off unused or expired meds at  
Mt. Lebanon Public Safety Center  
555 Washington Road**
