STOP ADDICTION FOR EVERYONE

“When I was in school, gateway drugs were tobacco, alcohol and marijuana. Today kids start with prescription meds, and they’re abusing them while they’re partying.”

ADDICTION IS A TREATABLE DISEASE: One in four teens has misused or abused a prescription drug at least once in their lifetime, a 33 percent increase over the past five years.

YOUR PRESCRIPTION MEDS CAN BE SOMEONE ELSE’S PROBLEM!

KEEP YOUR MEDICATIONS SECURE.

**Drop off unused or expired meds at
Mt. Lebanon Public Safety Center
555 Washington Road**
