## I. INTRODUCTION

Chapter XX of the Mt. Lebanon Code, also known as the Zoning Chapter, sets forth the regulations concerning the use, density, and maintenance of land, buildings, and structures within the Municipality of Mt. Lebanon. The Zoning Chapter designates eight residential, three commercial districts and six special districts, which, along with the regulations, are intended to:

*“accommodate reasonable overall community growth, including population and employment growth, and opportunities for development of a variety of residential Dwelling types and non-residential Use.”*

## II. VARIANCE

### A. What is a variance?

A variance is a relief from the provisions of the Zoning Ordinance, granted exclusively by the Zoning Hearing Board (see Section III of this report for an explanation of the roles and duties of the Zoning Hearing Board). The Zoning Hearing Board will hear requests for a variance in cases “where it is alleged that the provisions of the Zoning Chapter inflict unnecessary hardship upon the applicant” (§ 910.2 Pennsylvania Municipalities Planning Codes). It is important to note that a variance is property related; in other words, if an application is granted a variance for a specific use, and he or she subsequently moves elsewhere, the variance still applies to that property only, as long as the standards established by the Zoning Hearing Board are maintained. A variance cannot be “carried” from one property to another.

### B. Why do I need a variance?

It is often believed that when a resident or business owner wishes to utilize his or her property in a manner that is not permitted in the Zoning Chapter, the logical recourse is to apply for a variance. However, the Pennsylvania Municipalities Planning Code, which is the legislation enable municipalities within Pennsylvania to enact and enforce zoning and other regulator ordinances, specifically outlines conditions under which a variance may be granted.

### **§ 910.2. Zoning Hearing Board’s Functions; Variances.**

a. The board shall hear requests for variances where it is alleged that the provisions of the zoning ordinance inflict unnecessary hardship upon the applicant. The board may by rule prescribe the form of application and may require preliminary application to the zoning officer. The board may grant a variance, provided that all of the following findings are made where relevant in a given case:

1. That there are unique physical circumstances or conditions, including irregularity, narrowness, or shallowness of lot size or shape, or exceptional topographical or other physical conditions peculiar to the particular property and that the unnecessary hardship is due to such conditions and not the circumstances or conditions generally created by the provisions of the zoning ordinance in the neighborhood or district in which the property is located.

2. That because of such physical circumstances or conditions, there is no possibility that the property can be developed in strict conformity with the provisions of the zoning ordinance and that the authorization of a variance is therefore necessary to enable the reasonable use of the property.

3. That such unnecessary hardship has not been created by the appellant.

4. That the variance, if authorized, will not alter the essential character of the neighborhood or district in which the property is located, nor substantially or permanently impair the appropriate use or development of adjacent property, nor be detrimental to the public welfare.

5. That the variance, if authorized, will represent the minimum variance that will afford relief and will represent the least modification possible of the regulation in issue.

b. In granting any variance, the board may attach such reasonable conditions and safeguards as it may deem necessary to implement the purposes of this act and the zoning ordinance.

### **III. WHAT IS THE ZONING HEARING BOARD?**

Every municipality which has enacted a zoning ordinance is required to have a zoning hearing board. The rules and regulations of the Mt. Lebanon Zoning Hearing Board were originally adopted in 1930. They were most recently amended in 1988, in accordance with the Pennsylvania Municipalities Planning Code.

#### **A. Purpose of The Board**

The purpose of the Zoning Hearing Board is to conduct hearings and render decisions regarding requests for variances to the Zoning Chapter. Hearings conducted by the Board are quasi-judicial proceedings. This means that, although formal rules of evidence do not strictly apply, the record created during a hearing in front of the Board is considered to be a legal record of the proceedings.

## **B. Membership**

The Zoning Hearing Board consists of three members, all of whom must be residents of Mt. Lebanon. The Commission selects the members and appoints them to three year terms. The terms are staggered in such a way that the term of office of one member shall expire each year. Annually, the Board elects a Chairman, Vice-Chairman and Secretary to serve for the calendar year.

## **C. Meetings**

Regular meeting of the Board are held on an as-needed basis, and are scheduled on Thursdays at 7:00 p.m. in the Commission Chambers of the Mt. Lebanon Municipal Building. However, the Chairman may call meetings at other times, provided that 24 hours notice is given to each member.
