

Body Armor

1012.1 POLICY HEADER

Original Effective Date:	Revised Date:
September 1, 2021	January 4, 2023
Authorization:  Jason Haberman Chief of Police	

1012.2 PURPOSE AND SCOPE

The purpose of this policy is to provide officers with guidelines for the proper use of body armor.

1012.3 POLICY

It is the policy of the Mt. Lebanon Police Department to maximize officer safety through the use of body armor in combination with prescribed safety procedures. While body armor provides a significant level of protection, it is not a substitute for the observance of officer safety procedures.

1012.4 ISSUANCE

The Police Administration shall ensure that body armor is issued to all officers and that, when issued, the body armor meets or exceeds the standards of the National Institute of Justice. The Police Administration shall also issue plate carriers and ballistic plates to members as required.

Body armor and plate carriers shall be issued when an officer begins service at the Mt. Lebanon Police Department and shall be replaced when the body armor becomes worn or damaged to the point that its effectiveness or functionality has been compromised, in accordance with the collective bargaining agreement.

The Chief of Police may authorize issuance of body armor to uniformed, civilian members whose jobs may make wearing of body armor advisable.

1012.4.1 USE

Generally, the required use of body armor is subject to the following:

- (a) Members shall only wear department-approved body armor.
- (b) Members shall wear body armor any time they are in a situation where they could reasonably be expected to take enforcement action.

Body Armor

- (c) Uniformed members shall wear the vest under the uniform shirt or in the authorized external carrier.
- (d) Members shall always wear body armor when engaged in pre-planned, high risk incidents.
- (e) Members should wear plate carriers when involved in high risk incidents involving suspected active shooters.
- (f) Members shall wear body armor when working in uniform or taking part in department range training.
- (g) Members are not required to wear body armor when they are functioning primarily in an administrative or support capacity and would not reasonably be expected to take enforcement action.
- (h) Officers may be excused from wearing body armor when they are involved in undercover or plainclothes work that their supervisor determines could be compromised by wearing body armor, or when a supervisor determines that other circumstances make it inappropriate to mandate wearing body armor.
 - 1. In those instances when body armor is not worn, officers should have reasonable access to their body armor.

1012.4.2 INSPECTION

Supervisors should ensure through routine observation and periodic inspections that body armor is worn and maintained in accordance with this policy.

1012.4.3 CARE AND MAINTENANCE

The required care and maintenance of body armor is subject to the following:

- (a) Members are responsible for inspecting their body armor for signs of damage, wear and cleanliness at the start of each shift.
 - 1. Unserviceable body armor shall be reported to the on-duty Watch Commander.
- (b) Members are responsible for the proper storage of their body armor.
 - 1. Body armor should not be stored for an extended period of time in an area where environmental conditions (e.g., temperature, light, humidity) could potentially degrade its effectiveness.
- (c) Members are responsible for the care and cleaning of their body armor pursuant to the manufacturer's care instructions.
 - 1. Body armor should not be exposed to any cleaning agents or methods not specifically recommended by the manufacturer.
 - 2. Failure to follow manufacturer's care instructions may damage the ballistic performance capabilities of the body armor. If care instructions for the body armor cannot be located, the manufacturer should be contacted to request the instructions.

Body Armor

- (d) Body armor should be replaced in accordance with the manufacturer's recommended replacement schedule, or when its effectiveness or functionality has been compromised.

1012.5 RANGEMASTER RESPONSIBILITIES

The responsibilities of the Rangemaster include, but are not limited to:

- (a) Monitoring technological advances in the body armor industry for any appropriate changes to department-approved body armor.
- (b) Assessing the level of weapons and ammunition currently utilized by the public and the suitability of approved body armor to protect against those threats.
- (c) Educating officers about the safety benefits of wearing body armor.
